

SGreports Filter Setup for Wowza Stream-names (Non-graphic Version)

This tutorial goes over setting up a filter for a Wowza stream name with SGreports if your Wowza profile doesn't have a Dashboard. If you have any questions, please contact support@streamguys.com.

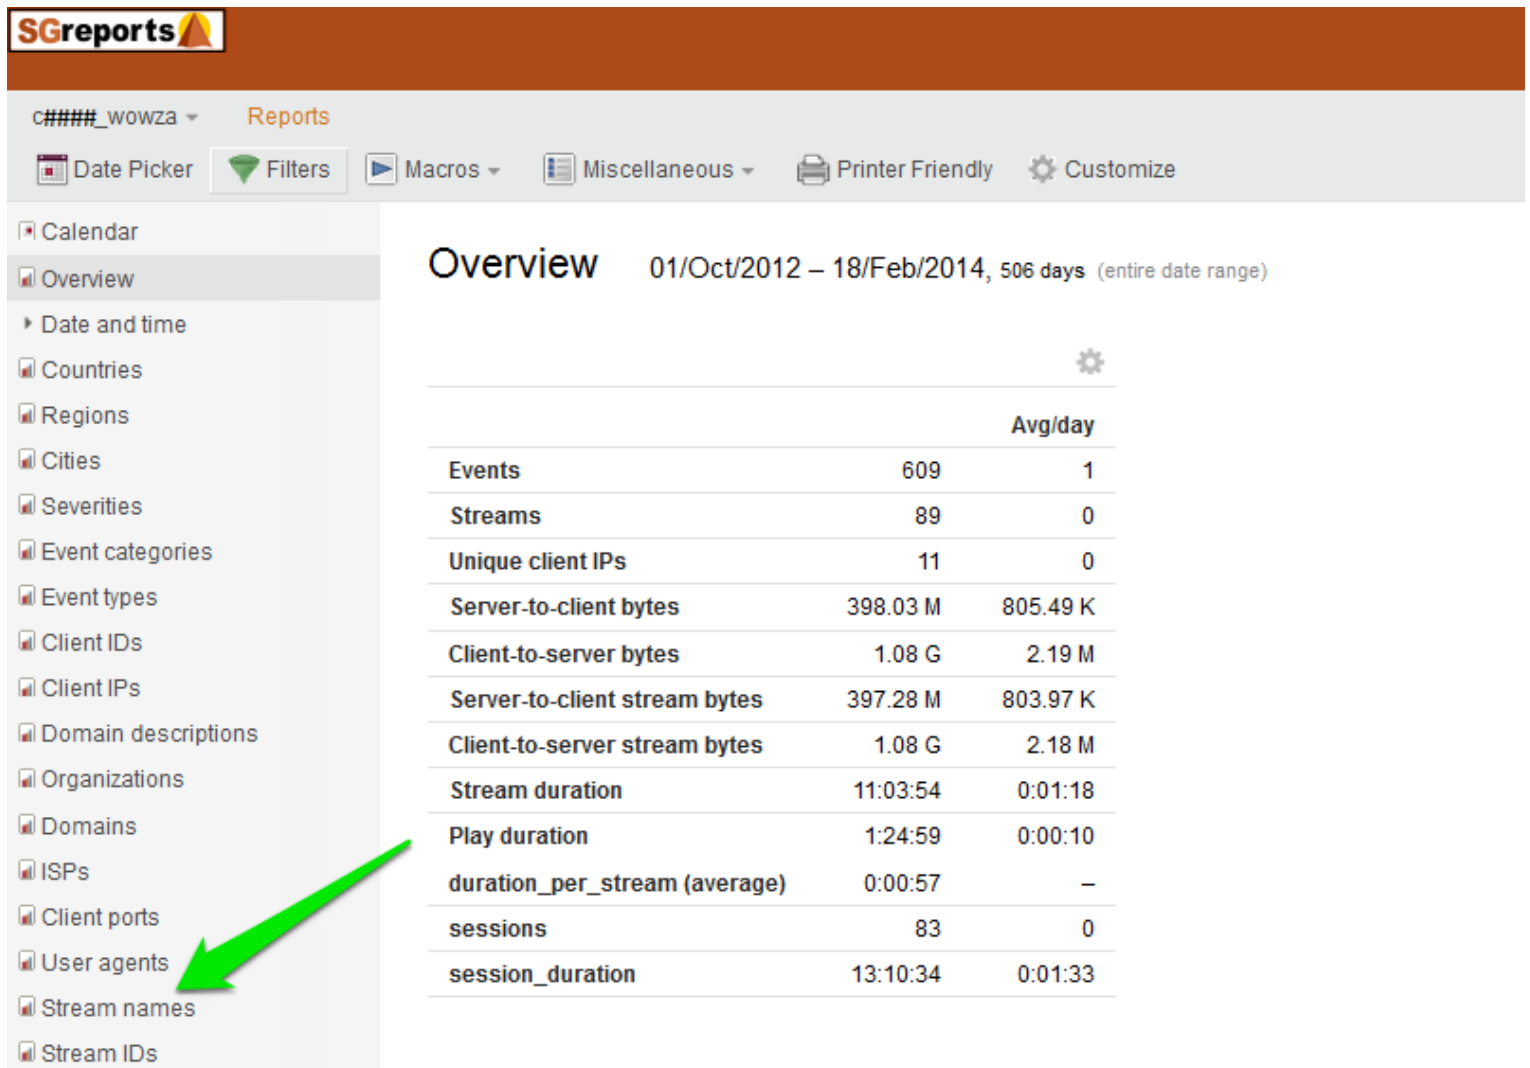

Please note: The accuracy of your reports depends on how well you filter for your target population (e.g. your audience).

If you would like to setup a duration filter to filter out short accesses (e.g. < 90 secs), please see [SGreports Filter Setup for Play Duration.pdf](#).

To have all announcements, prerolls, and Adswizz insertions filtered out as well, please contact support@streamguys.com about setting up a SGreports playlist profile.

Log into your SGreports manager, and go to your respective Wowza profile. This will take you to your Overview section. *

Select Stream names from the left column.

The screenshot shows the SGreports web interface. The top navigation bar includes the SGreports logo and a 'Reports' tab. Below this is a toolbar with options like 'Date Picker', 'Filters', 'Macros', 'Miscellaneous', 'Printer Friendly', and 'Customize'. The left sidebar lists various filter categories, with 'Stream names' selected and indicated by a green arrow. The main content area is titled 'Overview' and shows data for the period '01/Oct/2012 – 18/Feb/2014, 506 days (entire date range)'. A table of statistics is displayed, with columns for the metric, its value, and the average per day.

		Avg/day
Events	609	1
Streams	89	0
Unique client IPs	11	0
Server-to-client bytes	398.03 M	805.49 K
Client-to-server bytes	1.08 G	2.19 M
Server-to-client stream bytes	397.28 M	803.97 K
Client-to-server stream bytes	1.08 G	2.18 M
Stream duration	11:03:54	0:01:18
Play duration	1:24:59	0:00:10
duration_per_stream (average)	0:00:57	–
sessions	83	0
session_duration	13:10:34	0:01:33

* Please see [SGreports Filter Setup for Wowza Stream Names.pdf](#) instead, if you see a page titled Dashboard.

In the Stream names window, select your stream name (i.e. streamName) by clicking the zoom icon.

Stream name	↓ Events	Streams	Unique client IPs	Server-to-client bytes	Client-to-server bytes	Server-to-client stream bytes	Client-to-server stream bytes	Stream duration
1 -	221,61270.3 %	23,728	389	0 B	0 B	0 B	0 B	0:03:40
2 streamName	71,64822.7 %	24,010	412	0 B	0 B	76.51 G	1081.95 G	7887:04:21
3 200	14,6654.7 %	2,527	120	0 B	3.02 M	76.33 G	0 B	1:11:58
4 100	4,5921.5 %	1	107	0 B	830 B	0 B	0 B	0:00:00
5 401	2,7310.9 %	1	1	0 B	0 B	0 B	0 B	0:00:00
6 404	80.0 %	1	2	0 B	0 B	0 B	0 B	0:00:00
Total	315,256100.0 %	50,268	1,031	0 B	3.02 M	152.84 G	1081.95 G	7888:19:59

In the Filters dialog box, click Move to Saved, then select the Saved tab.

Filters

Just added (1 active)Saved (0 active)Recently added (0 active)

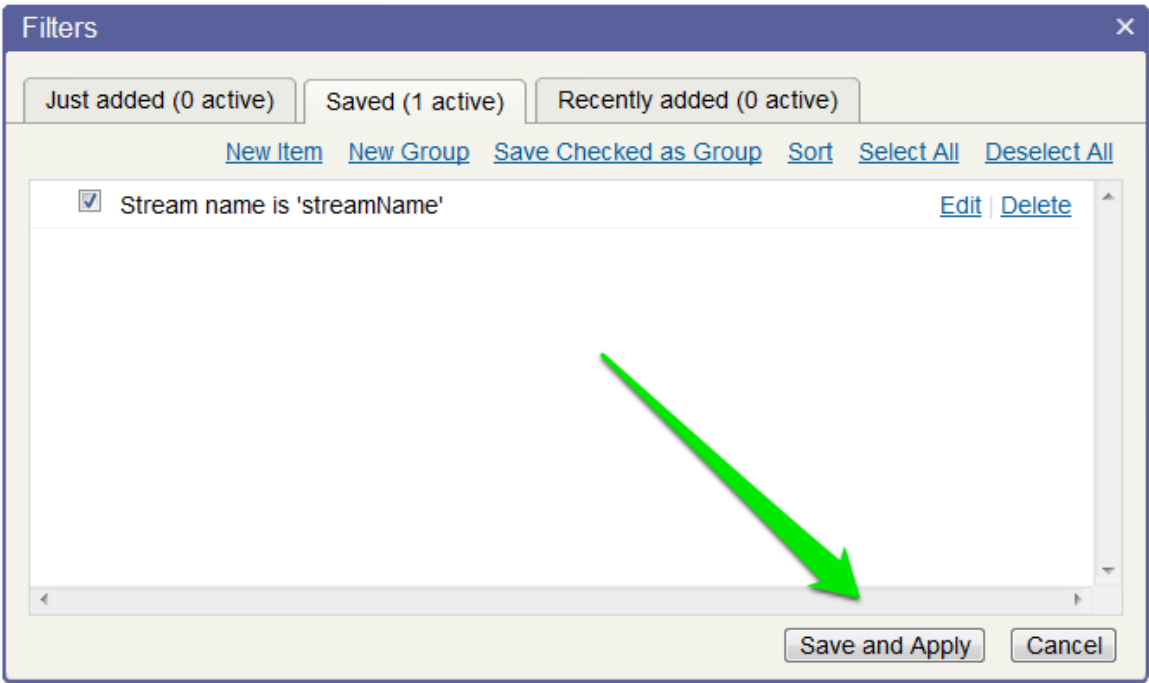

Select AllDeselect All

☒ Stream name is 'streamName'

Move to SavedDelete

Save and ApplyCancel

In the Saved tab, click the Save and Apply button.

Now the top of all your reports will indicate that a stream name filter is in effect.
